

Part No. PA815 PSU

Features

- Eight individually fused outputs (PTC) 600mA Max
- AS/NZS 61558 Approved
- Short Circuit and High Temperature protection
- AC power indicator on front cover
- Individual LED's for each output
- Power cable supplied
- Strong metal cabinet with good ventilation
- Cabinet has punch outs and grommets for easy cable access
- 2 year warranty

Specifications

Model	PA815 PSU
Output	
Output Voltage	24 VAC+10% (No load - 27V+10%)
Total Output Current	5A (600mA/output, 8 channels)
Output Fuse Rating	PTC 1.1A / 60V
Efficiency Rating	+95%
Protection	
General Protection	Each output has an individual PTC fuse and LED indicator.
Circuit Short Protection	When a short condition occurs, individual PTC fuse will open. When short removed, fuse will automatically reset
High-temperature protection	Output shutdown @ 135°C
Over-voltage protection	No
General	
Working temperature and humidity	-10°C~+60°C 20%~80%RH
Storage temperature and humidity	-20°C~+85°C, 10%~90%RH
Input Voltage	240V AC Mains
Input Voltage Frequency	50/60Hz
Thermal Input Fuse Rating	135Degrees
Approvals	CTick Approved : AS/NZS61558
